Supplement to Marcella Booth's "A Catalogue of the Louis Zukofsky Manuscript Collection"

BY CATHY HENDERSON

Since August 1969, which was the cut-off date for Marcella Booth's *A Catalogue of the Louis Zukofsky Manuscript Collection*, published by the Humanities Research Center in 1975, the HRHRC has added significantly to its holdings of the Zukofsky papers. Two lots of material came from the poet Carl Rakosi in 1969, one from Al Millen after the death of Lorine Niedecker in January 1971, and four lots from the Zukofskys in 1969, 1973, 1975, and 1979, as well as one or two manuscripts that appeared as the papers of other authors were received and catalogued. In the dozen years since the publication of the *Booth Catalogue*, scholarly interest in the work of Louis Zukofsky has increased steadily, prompting the publication of this supplement, along with a short-title list of books at the HRHRC from Louis Zukofsky's library.

With some modifications, the supplement follows the format of the *Booth Catalogue*, adopting Booth's pattern for title, kind of manuscript, collation, physical description (excluding centimeter measurements of paper size), autograph notes, date of composition, contents, revisions, and notes. Time constraints precluded any comparison of the manuscripts with printed texts to determine variants. For the same reason, publication information is generally excluded.

Numbered entries correspond to Booth's original numbers. When a new title entry falls between Booth's numbering sequence, the chronology has been maintained by extrapolating a decimal designation for the new title, basing it on the immediately preceding Booth number. For example, B15.1. Titles in the *Booth Catalogue* are repeated here so that the Supplement may be scanned independently, but it is designed to be used ultimately in conjunction with the *Catalogue*. For existing titles, an entry is indicated as a "Correction," an "Addition," a "Clarification," or a "Contention," while "New" titles are identified accordingly. If the manuscript is part of another author collection, the source is cited immediately following the indicator. For example, where there is already an entry in Booth for a poem also included in the acquisition of Lorine Niedecker's papers, this entry is designated:

Addition/NIEDECKER. When no collection name is given, the supplementary material came from the Zukofskys.

Two new abbreviations are employed in the supplement:

CZ	Celia Zukofsky
LN	Lorine Niedecker

In the *Booth Catalogue*, items in section A not among the HRHRC's holdings are indicated by an asterisk. This system applies as well to section A of the supplement. Items preceded by an asterisk in the *Catalogue* that have since been acquired by the Center are: A1, A24b, A24c, A26b, A26c, A30, and A31b.

Proposed Works

I19.1

New. T on 1 leaf of standard typing paper. AN: ca. 1930. ANS: 25may71. Corrections.

LZ's plan for a novel to be titled *That People The Sunbeams*. The plan is outlined in terms of Plot, Preface, and Suggested Style. The novel was envisioned as being divided into three parts—potential, kinetics, and kines-thetics. LZ's 1971 note indicates that the ideas for the novel were incorporated into other work and the novel itself abandoned.

I19.2

New. T on 2 leaves of standard typing paper. AN: ca. 1930-31; 4jan40; 1971. Pagination: [1]-2.

MS titled: "Outline of Project for a Study of the Writings of Thomas Jefferson." The book was to have four chapters, all of which would focus on different aspects of Jefferson's ability with words.

I19.3

New. Tcc on 4 leaves of thin typing paper. 12nov37. Corrections.

MS titled: "Outline for book on American Arts Design." The outline takes the form of a chart with 1½ pages and 2¼ pages of explanatory prose text.

Clarification: This manuscript can now be identified as LZ's notes about a manuscript of William Carlos Williams's libretto for an opera on the life of George Washington. There were to be three acts of three scenes each. In Scene Two, the character playing Mrs. Arnold was to sing a four-line "weeping song" composed by LZ. There was also to be an introduction for the composer. Work on the opera was a collaborative effort among William Carlos Williams, LZ, Tibor Serly, and John Klenner. The project was never realized. For additional information see Booth C26 and Paul Mariani's *William Carlos Williams; A New World Naked* (New York: McGraw Hill, 1981), pp. 341, 356–358, 374, 388, 480, and 489.

K. BOOKS FROM ZUKOFSKY'S LIBRARY

This section contains a short-title list of books from Louis Zukofsky's library. Described in two categories are works used by Zukofsky for *BOTTOM: ON SHAKESPEARE* and miscellaneous works that bear LZ marginalia. Inscriptions are quoted and the presence of marginalia noted. Excluded are more than 700 items: books signed or inscribed to LZ by their authors; magazines or anthologies containing contributions by LZ; and publications containing references to LZ.

In the time available it was not possible to identify clearly in the HRHRC's collections the editions or, at times, even the full titles of 30 of the books used by LZ for *BOTTOM: ON SHAKESPEARE*. Works whose full titles could be determined but for which there is no clear evidence of edition are described as "Edition undetermined." For works whose full title could not be identified, LZ's own short-title listing is given. This listing, supplied by LZ when the Center acquired his library, indicates which books were used by the poet in his writing of *BOTTOM*.

Louis Zukofsky's library is very much a working library. Few of his books are distinguished by edition or condition; many are inexpensive, readily available paperbacks. The short-title listings have been constructed here to allow scholars a means of identifying as closely as possible the precise edition and printing. In this way scholars may reasonably locate "duplicates" of Zukofsky's working texts.
